

# PRO JUMBOKNOCHEN

A natural treat

## Spoil and surprise your pet!

The JUMBO-bone is a hit with big dogs. Weighing around 2 kg, the bone is a true eye-catcher! It's sure to keep your dog busy for a long time and your dog won't ever want to give it back. The bone comes from a cow and is untreated.

During the gentle drying process carried out at temperatures up to 120 degrees Celsius, germs and bacteria are killed off ensuring the long shelf-life of the product without the addition of preservatives.

- free from artificial additives
- free from preservatives
- tested for BSE and foot-and-mouth

## Feeding recommendation

To be given as a treat as required

## Instructions

This bone has been carefully dried. In rare cases, the bone may shatter and the broken fragments of bone may cause injury to the dog. The bone must not be used unsupervised. If the bone does shatter it should no longer be given to the dog.
